SUMMARY

I am a diligent and detail-oriented student with a passion for computer science and design. I possess a unique blend of technical and creative skills, as well as essential character traits such as strong work ethic, reliability, creativity, curiosity, etc. My eagerness to learn and pursue my passions can be seen through my involvement in various projects and extracurricular activities. I am eager to apply my skills and knowledge to make a positive impact on the community around me, and am committed to pursuing further learning and growth.

EXPERIENCE

Design Lead

Redmond Code Association

2022-2023

- Responsible for developing and implementing effective marketing strategies to increase awareness of the community and attract new members
- Regularly created social media posts, posters, designs, etc.
- As of today, RCA has impacted over 750 students

Teacher's Assistant

CSWonders LLC

2020-2022

- Worked as a Teaching Assistant for CSWonders summer camps and courses (www.cswonders.com)

Hackathon Participant

HackPNW

June 2023

- Helped create a website that allows users to find sustainable alternatives to fast fashion clothing
- Implemented AI that can use image recognition to find the closest alternative from a wide database of sustainable clothing websites.
